

- **The Lord's Supper is about being in a uniquely special PLACE** for we are here in the company of our eternal brothers and sisters in Christ.
- **It is about sharing a uniquely special MEAL** for we share in the broken bread of Christ's broken body and in the cup of the blood He shed for us. These elements we share represent the most essential and intimate aspects of our union with our Lord.
- **The Lord's Supper is about a uniquely special ENCOUNTER with the eternal God of all Creation** all who loves us and desires to draw near to us.

Luke 22:14-15

- As Jesus tells His disciples of His earnest desire to share this meal with them, He calls to us today with the same eagerness, the same purpose, and the same redeeming love.
- *If the Son of God and eternal Lord of All eagerly desires to share this meal with us, should we not be eager for the same?*
- We are prone to take the Lord's Supper for granted and make in our hearts far too little of this unique opportunity to encounter the living Lord through the unique means He has prescribed in the bread and the cup.
- In the Lord's Supper God means to draw every part of us into worshipful **FELLOWSHIP** with Him in Christ.
- Therefore, let us make the most of this moment this morning and meet with our Lord around His Table of grace.
- It is our **HUNGER** to know Christ and our desire to be near Him that makes this meal most beautiful, meaningful, and complete.
